

External Wall Insulation

Working principally in a main contractor capacity, Jefferies have completed external wall insulation works to in excess of 3000 homes since 2010. Jefferies have worked on CERT, CESP and ECO projects in both South Wales and the Midlands and have secured funding with one of the largest providers of funding in the UK.

- Regional offices, designated management teams and resources
- A core management team with in excess of 100 years main contracting experience
- Customer focused with an out of hour's emergency provision for peace of mind
- PAS2030 accredited for external wall insulation, loft insulation, heating and heating controls installations, allowing efficiencies to be achieved where multiple measures are required
- Successfully managed projects to meet the requirements of PAS2030 in both sub-contractor and main contractor capacity
- Experience with traditional build properties as well as a variety of non-trads including Wimpey No-fines, BISF, Smiths and Cornish.
- Capable of coordinating and managing all technical information, consultants and statutory bodies where required
- Accredited by many system providers, including; PPG, Wetherby, Weber, Rockwool and SPS
- Direct labour force - local sub-contractors where required, suitable and available
- Project value experience £300,000 - £3,000,000
